Instructions for Affresh™ Dishwasher & Disposal Cleaner

Cleaning Dishwasher:
Read all steps completely.

Step 1:

Remove all dishware from the dishwasher. Open the dishwasher and place one tablet in the main detergent tray. Close the tray.

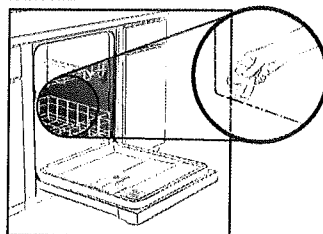

Tablet #1

Step 2:

Place the second tablet in the prewash tray or in the bottom of the dishwasher. Close the dishwasher. Run the dishwasher on the most aggressive cycle—heavy duty scrub, high-temperature wash, etc. For best results, continue to Step 3. If you do not have a disposer, skip Step 3.

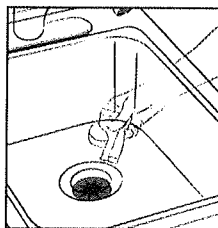

Tablet #2

Step 3:

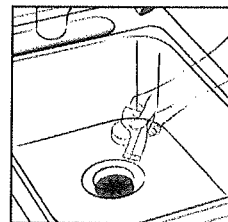

Place a third tablet into the disposal. Turn on hot water to a slow flow. Run the disposal and water for 15 seconds. Turn off disposal and water. Do not flush the disposal completely with water. Water from the dishwasher will clean out the disposal.

Tablet #3

Cleaning Disposal:

Place one tablet in the disposal. Turn on hot water to a slow flow. Run the disposal and water for 15 seconds. Turn off the disposal and water. Wait 30 minutes then flush the disposal with hot water.
