

Gas Fireplaces

Shown with black trim and standard black louvers.

CDV33/34 - Direct Vent

Luxurious Warmth for Small Spaces

This unit is so versatile it can be installed almost anywhere! It's compact size, at 13" deep, allows you to install in the smallest rooms making it perfect for areas with limited space. Available as a rear vent (33) or a top vent (34), making installation possibilities even greater. This smaller unit creates the coziest atmosphere in a room that you will never want to leave! (BCDV33/34 also available offering lower BTU's)

Optional bay front design complete with safety screen.

Louvre overlays available in polished brass and brushed stainless steel. (Painted black louvers come standard)

Shown with Simcoe™ mantel in Special Walnut finish, custom filler panels and standard black louvers.

Optional river rock ember bed replaces the existing logs for a more contemporary setting.

Five choices for firebox panel options.

CDV36 - Direct Vent Traditional Design

The CDV36 is the most versatile fireplace with hundreds of different decorative design options to choose from. With up to 26,000 BTU's, it provides plenty of cozy heat – perfect for any room in your home.

Vent free model also available (CVF36*).

*Vent free units are not approved in Canada and some States.

Shown with optional river rock kit and standard black louvers.

BCDV36 - Direct Vent

Comfortable Warmth

The BCDV36 model offers up to 17,000 BTU's to generate enough heat to comfortably warm any mid-size room. A wide range of decorative options allows for different designs to suit your decorating style.

Natural vent model also available (BCNV36).

Louvre overlays available in polished brass and brushed stainless steel.
(Painted black louvers come standard)

Realistic Phazer® log set comes standard.

Shown with concave pewter surround and optional river rock kit.

Designer surrounds available in luxurious pewter or rich brown finishes. Available as wave, convex or concave (BCDV36CF).

Realistic Phazer® log set comes standard.

BCDV36CF / BCDV42CF

Direct Vent

Modern Clean Face

Continental's popular 36" and 42" fireplaces are available as clean face units with a louvre-free view of the firebox. A perfect complement to a crisp, contemporary design with plenty of reliable, cozy heat.

Shown with concave brown surround.

BCDV36CFG - Direct Vent Sparkling Fires

It's crystal clear. A clean face design with an exclusive CRYSTALINE™ ember bed embraces Continental's new collection of contemporary fireplaces. This fireplace provides inspiration to create a hearth experience that focuses on warmth, beauty and style. CRYSTALITES™ come standard (lights that accent the crystals from below) and can function with or without the flame. Simply irresistible!

Designer surrounds available in luxurious pewter or rich brown finishes. Available as wave, convex or concave.

Set of four exclusive CRYSTALITES™ accent the crystals from below even when the fireplace is turned off, doubling as a NIGHT LIGHT™.

Shown with standard painted black louvers.

MIRRO-FLAME™ Porcelain Reflective Radiant Panels that echo flames throughout the firebox come standard.

Real wood burning experience with the multi-level burner and exclusive PHAZER® logs.

BCDV42 - Direct Vent Impressive View

The Porcelain Reflective Radiant Panels, included with the unit, create four spectacular fires in one and fill the large firebox with an echo of beautiful YELLOW DANCING FLAME® patterns. The impressive view, along with exceptional decorative options, furnishes your room with a fireplace admired by all. An excellent choice for comfort and style.

Vent free (CVF42*) model also available.

*Vent free units are not approved in Canada and some States.

Shown with faceplate complete with operable screen doors.

CDV70 - Direct Vent

Extreme Comfort and Style

You care about the environment. You need an efficient reliable fireplace but you also want the perfect atmosphere for your family to enjoy for many years. With up to 35,000 BTU's, an outstanding 81% efficiency rating and a 50% flame/heat adjustment for maximum comfort, the CDV70 gives you the reliable heat source you need. The CDV70 also comes complete with an exclusive NIGHT LIGHT™, heat circulating thermostatically controlled blower and PHAZERAMIC™ advanced burner system providing the most realistic flames in the industry.

Exclusive PHAZERAMIC™ advanced burner system.

NIGHT LIGHT™ illuminates the decorative firebox even when the fireplace is off.

Four-sided island (natural vent) shown with standard black louvers.

Two-Sided Corner.

Three-Sided Peninsula.

BCDV40 - Multi-sided Design Series

When your design vision is inhibited by installation challenges, you can turn to Continental's Multi-sided Fireplaces to give you the design flexibility you've been looking for. The BCDV40 Multi-sided Design Series creates interesting room dividers between bedrooms and bathrooms, kitchens and sitting rooms, entrance ways and living areas and even looks great in a corner. Five different models are available to suit any possibility; see-thru, corner (left, right or three-sided peninsula), and four-sided island (natural vent & vent free* only).

*Vent free units are not approved in Canada and some States.

Shown with four-sided frame in pewter finish, optional river rock media tray and Ribbed Porcelain Reflective Radiant Panels.

CHD35 - Direct Vent 35" High Definition

The simple yet sophisticated style of Continental's CHD35 fireplace provides every comfort you need to create a relaxing environment. The clean face design maximizes the viewing area so the realistic flames and log set are enjoyed to their fullest. With up to 25,000 BTU's, the CHD35 generates plenty of cozy heat and can easily turn down to a lower, comfortable setting.

Realistic PHAZER® log set comes standard.

MIRRO-FLAME™ Ribbed Porcelain Reflective Radiant Panels echo flames throughout the firebox.

Shown with painted black andirons.

River rock media tray with satin chrome decorative fender complete with sand, easily switches out existing logs for a more contemporary look.

MIRRO-FLAME™ Ribbed Porcelain Reflective Radiant Panels echo flames throughout the firebox.

CHD40 - Direct Vent 40" High Definition

This mid-sized fireplace gives you all the great features of the CHD35 plus offers a wider 40" firebox width with 27,000 BTU's. Two distinct design choices - either a traditional PHAZER® log set which comes standard with the unit or the optional river rock media tray with satin chrome decorative fender that gives you a more contemporary fireplace experience.

Shown with Porcelain Reflective Radiant Panels and painted black andirons.

CHD46 - Direct Vent

46" High Definition

The largest in the CHD series and offering up to 30,000 BTU's, the CHD46 provides a substantial focal point for any room. The impressive 46" width is completely filled with realistic PHAZER® logs that are rich in colour and detail. As with the other CHD fireplaces, you can choose the optional river rock media tray with satin chrome decorative fender to create a dramatic contemporary design element in your home.

River rock media tray with satin chrome decorative fender, complete with sand easily switches out existing logs for a more contemporary look.

MIRRO-FLAME™ Ribbed Porcelain Reflective Radiant Panels echo flames throughout the firebox.

Shown with optional painted black surround & porcelain reflective panels.

Optional river rock ember bed is added to the glass for a natural contemporary setting.

Optional deluxe surrounds available in black, brown and white. Optional basic surround available in painted black. Optional premium surrounds available in brushed stainless steel.

CLHD45 - Direct Vent Linear Design

The CLHD45 provides a modern, linear design at an affordable price that pleases both new building and renovation budgets. With unique design options (coloured glass media enhancement kits and river rocks), the CLHD45 captures an extraordinary fireplace experience in any room. Perfect for contemporary and open concept living rooms.

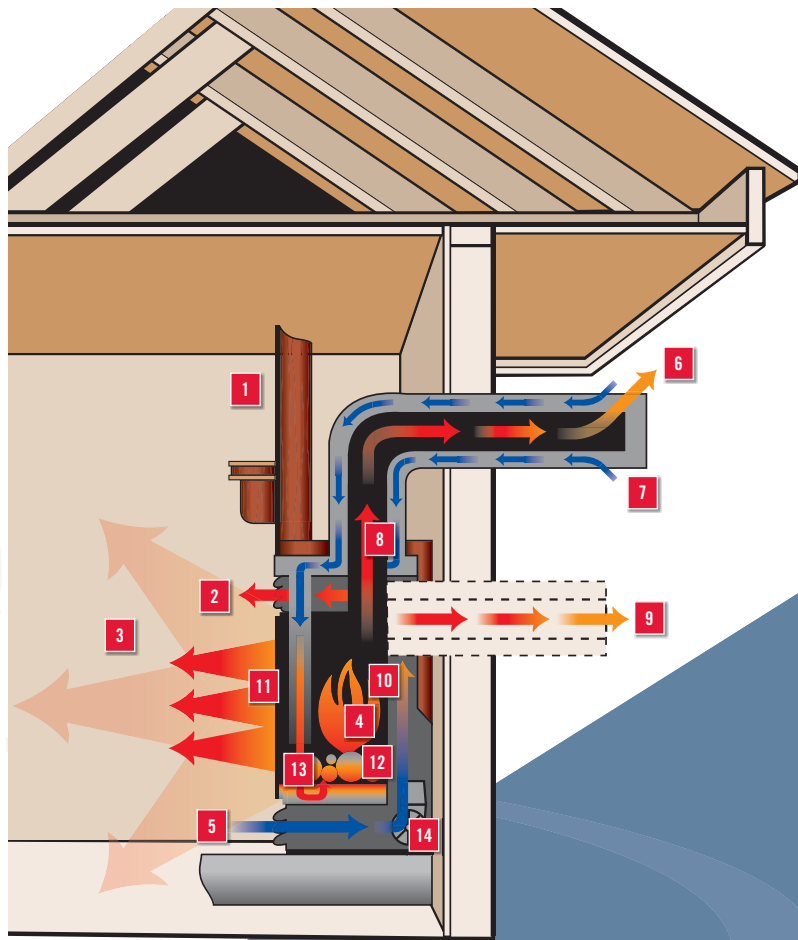

Direct Vent System

With over 30 years of research and development, Continental® Fireplaces have perfected direct vent technology to offer you a fireplace, stove or insert that easily fits into your lifestyle.

With Continental's direct vent technology, you can design and install your fireplace in unique locations where it wasn't possible before with traditional masonry fireplaces. Even your basement can be transformed into a warm, inviting oasis for your family and friends to enjoy.

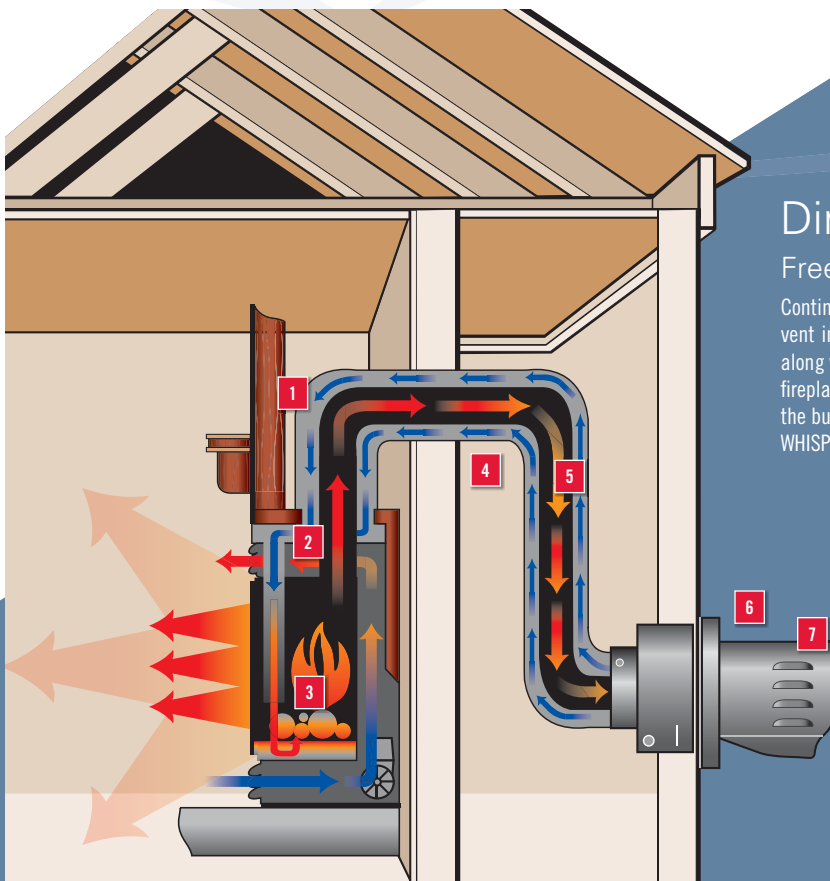

Whether you are renovating, building or replacing an inefficient fireplace product, Continental® helps guide you in the right direction to find the product that's right for you and your home. Continental® Fireplaces are a smart investment that will bring many years of affordable luxury to you and your family.

- 1 Framing**
Zero clearance to combustible framing.
- 2 Heated Air**
Forced convection heated room air.
- 3 Radiant Heat**
- 4 Burner**
Advanced burner technology produces the most realistic flames in the industry.
- 5 Heat Exchanger**
Cool room air is naturally drawn into the heat exchange chamber.
- 6 Flue Gas Outlet**
- 7 Combustion Air Inlet**
- 8 Heat Exchange**
Efficient heat exchange system.
- 9 Optional Rear Exhaust**
(selected models)
- 10 Sealed Combustion Chamber**
- 11 Glass**
High heat ceramic or tempered glass increases the radiant heat that is dispersed throughout the room. Save up to 30% on energy costs with radiant heat and zone heating.
- 12 Panels**
Porcelain Reflective Radiant Panels further increases radiant heat. (Optional on selected models)
- 13 Advanced Ceramic Burner System**
(selected models)
- 14 Blower**
Optional air circulating variable speed blower with high temperature bearings increases efficient heating.

Direct Vent Power Venting System Freedom and Versatility

Continental's new power venting system allows more freedom and versatility for direct vent installations. The option of having the termination above or below the fireplace, along with the ability to "snake" either up or down, allows installation when the desired fireplace location is a great distance away from an outside wall. The blower that pulls the burned gases from the fireplace is mounted outside at the terminal which provides WHISPER QUIET™ operation inside the home.

- 1 Exhaust**
Suitable for exhaust products with various vent diameters.
- 2 Adjustments**
Adjustments inside fireplace only.
- 3 Durability**
Installation friendly, maintenance free construction.
- 4 Versatility**
Ability to "snake" either up, down or around objects (ie; behind stairways).
- 5 Simplicity**
No hoses to blower.
- 6 Blower**
Blower mounted outside at terminal with WHISPER QUIET™ operation.
- 7 Freedom**
Terminates above or below the fireplace to allow more freedom and versatility for direct vent installations.

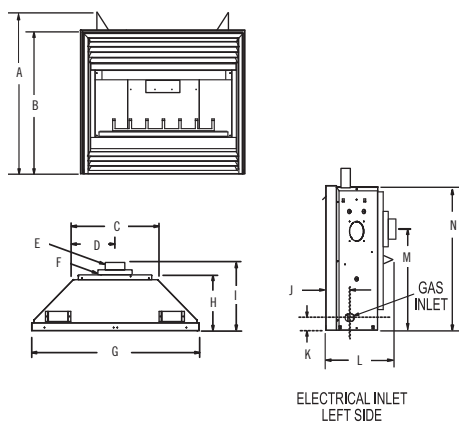

CDV33/34

Features & Benefits

- 488 sq. in. viewing area
- Compact size and 13" depth allows installation in the smallest rooms
- Available as a rear vent (CDV33) or top vent (CDV34)
- Fuel saving electronic ignition is available
- Exclusive PHAZER® glowing log set with glowing embers
- Heat resistant ceramic glass radiates heat back into the room
- Black door and black (upper & lower) louvres come standard
- Optional bay front complete with pull screen and other decorative accessories available
- On/off or thermostatically controlled hand-held remotes available
- Approved for bedrooms, bathrooms, bed sitting rooms and mobile homes
- Available in natural gas or propane (LP)
- Backed by the President's Limited Lifetime Warranty

CDV70

Features & Benefits

- 725 sq. in. viewing area
- Up to 50% flame/heat adjustment for maximum comfort and efficiency
- Fuel saving electronic ignition is available
- Exclusive PHAZER® glowing log set with charcoal and glowing embers
- PHAZERAMIC™ advanced burner system produces realistic YELLOW DANCING FLAME® patterns
- Heat resistant ceramic glass radiates heat back into the room
- Exclusive NIGHT LIGHT™ (illuminating the firebox even when the fireplace is off) comes standard
- Comes complete with heat circulating blower with variable speed and thermostatic control
- Optional decorative accessories and firebox panel choices
- On/off or thermostatically controlled hand-held remotes available
- Approved for bedrooms, bathrooms, bed sitting rooms and mobile homes
- Available in natural gas or propane (LP)
- Backed by the President's Limited Lifetime Warranty

Continental® gas fireplaces are tested to the following standards:

Tested as a heater/wall furnace to both ANSI Z21.86, Z21.88 AND CSA 2.32 AND CSA 2.33 - CDV33, CDV36, CDV70

Tested as a heater to ANSI Z21.88 AND CSA 2.33 - BCDV33, CDV34-1, BCDV36, BCDV36CF, BCDV36CFG, BCDV42, BCDV42CF, BCDV40, CHD35, CHD40, CHD46

Tested to ANSI Z21.50 AND CSA 2.22 - BCDV34-1, BCNV36, BCNV42, BCNV40

Tested as a heater to ANSI Z21.11 Volume II, unvented room heater standard - CVF42, CVF40

QUALITY PROMISE

All Continental® products are built to the strictest quality standards and only the highest grade materials are used. The computerized production processes, pride in workmanship and serious commitment to our achieved ISO9001-2008 certification, ensure many years of dependable performance.

VERSATILE INSTALLATION

Install in your home above or below grade, in any room even in bedrooms, bathrooms and kitchens. Inserts can be installed into existing masonry or prefabricated fireplaces. Direct vent models can be vented up to 20 feet horizontally through a wall, 40 feet vertically through the roof or below grade with a periscope. For all direct vent fireplaces we offer the smallest, architecturally pleasing vent terminal in the industry.

MAXIMUM EFFICIENCY

Our sealed combustion technology in our Direct Vent models uses outside air for combustion eliminating heat loss and cold drafts associated with conventional fireplaces. All Continental® models are designed to maximize efficiency levels with special heat retaining components.

CONVENIENCE

If all the conveniences of gas fireplaces and stoves aren't enough, enjoy full relaxation with Continental's remote controls. Available with an easy-to-read backlit digital readout of the room temperature and includes a child proof safety lock ensuring your peace of mind.

A RELIABLE ECONOMICAL HEATING SOURCE

Continental® products can save home heating costs by as much as 30% (Zone Heating by heating the rooms you use most) and provide reliable heat during power failures. No power? No problem! Continental's built in millivolt system requires no electricity to light or operate.

SAFETY FEATURES

100% SAFE GUARD™ gas control system automatically and quickly shuts off the gas supply for your peace of mind.

HEAT TRANSFERRING CERAMIC GLASS

Ceramic glass provides an excellent temperature transfer allowing maximum heat to radiate into the room. Some models use heat resistant tempered glass.

REALISTIC CERAMIC FIBRE LOGS

Continental's configuration of realistic logs creates a cozy and natural wood burning atmosphere.

RELIABLE BURNER SYSTEM & ADJUSTABLE FLAME

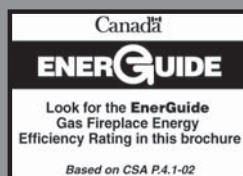

Our advanced YELLOW DANCING FLAME® burner provides maximum heat and flame pattern. For less heat, simply reduce the input with the built in 50% flame/heat adjustment for maximum comfort and efficiency.

ENVIRONMENTALLY FRIENDLY

Clean burning, convenient natural gas or propane provides an environmentally safe energy source - indoors and outdoors. Continental® products are designed to provide an environmentally friendly energy source.

OTHER PRODUCTS AVAILABLE

Other products available through your authorized Continental® dealer - Waterfall Collection, Patio Heaters, Electric Fireplaces, Mantels, Outdoor Living Products and Ultra Chef® Grills.

ENERGUIDE - A Canadian efficiency standard based on frequent, short start-up and cool-down cycles. All appliances sold in Canada are subject to this EnerGuide rating system. AFUE - A US efficiency standard (Department of Energy) based on extended on/off cycles, more typical of fireplace usage. STEADY STATE - Reflects the highest possible overall heating efficiency. Years of research, design and testing have enhanced optimum performance allowing Continental® products to achieve some of the highest heater rating efficiencies on the market. Our products continuously surpass industry standards not only in appearance but in efficiency and performance.

Consult your owner's manual for complete installation instructions, accurate framing dimensions and proper clearances to combustible materials. Installations shown may not be accurate to code. Check all local and national building codes and gas regulations. Products may not be exactly as shown. All specifications are subject to change without prior notice due to on-going product improvements. BTU's listed in brochure reflect natural gas applications.
